

# GLOBAL NEST: the International Journal

---

VOLUME 2 NUMBER 1

2000

## CONTENTS

- |  |     |   |
|--|-----|---|
| I. LIRITZIS  | 3   | Advances in Thermo- and - opto-luminescence dating of environmental materials (sedimentary deposits). Part I: Techniques    |
| I. LIRITZIS  | 29  | Advances in Thermo- and - opto-luminescence dating of environmental materials (sedimentary deposits). Part II: Applications |
| A. BABA  | 51  | Leaching characteristics of wastes from Kemerköy (Muğla-Turkey) power plant   |
| D. ARAPIS  | 59  | Natural-Restoration of radiopolluted ecosystems and impact on human health  |
| N. P. NIKOLAIDIS<br>HUIYING SHEN                             | 67  | Conceptual site model for evaluating contaminant mobility and pump-and-treat remediation                                    |
| I. K. TSANIS<br>JIAN WU                                      | 77  | Application and verification of a three-dimensional hydrodynamic model to Hamilton Harbour, Canada                          |
| A. V. BABAYAN<br>and K. A. NADOLIN                           | 91  | Simulation of the admixture spreading in a steady 2D lengthy stream of a viscous fluid                                      |
| M. ZAKE<br>D. TURLAJS<br>M. PURMALS                          | 99  | Electric field control of NO <sub>x</sub> formation in the flame channel flows  |
| I. MAVROIDIS   | 109 | Velocity and concentration measurements within arrays of obstacles  |
| G. MAVROTAS<br>S. PAVLIDOU<br>V. HONTOU<br>and D. DIAKOULAKI | 119 | Decomposition analysis of CO <sub>2</sub> emissions from the Greek manufacturing sector                                     |
